KCOM

Good news! KCOM have confirmed that they will bring Fibre to the Premise (FTTP) to Seaton Ross. The FTTP service brings fibre all the way to your home with speed offerings up to 900Mbps and much more reliable

Activities are now underway to plan the build, which may commence this year with connections early spring. In the meantime would residents who are interested in getting the service and to find out more please register here: <https://www.kcom.com/home/connect-my-community/>

KCOM are using the Department of Digital, Culture, Media & Sport (DCMS) Gigabit broadband scheme. This enables rural communities to obtain funding to bring gigabit capable speeds to these harder to reach areas. KCOM are in the process of approving a project with DCMS. Once approved residents will need to give their permission for KCOM to use a voucher for their connection.

More information can be found here: <https://www.kcom.com/home/connect-my-community/dcms-voucher-scheme/>. Finally, KCOM are keen to work with the community and are actively looking at supporting local projects through donations.
